EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The claims have been renumbered.

Allowable Subject Matter

Claims 1-13, 15-16 and 18-34 are allowed. It was previously argued by the examiner that the Gordon et al. reference broadly included using the bismuth precursors it disclosed in ALD as well as CVD process, though no examples or embodiments were literally given in the disclosure. However, the declaration filed 16 June 2009 is convincing to overcome this argument, pointing to other precursors mentioned in the same section as the bismuth precursors that would not work in an ALD process. Therefore, one of ordinary skill would not find the use of the bismuth precursor obvious as there is no guarantee of success and results. Therefore, the rejections of the previous office action are withdrawn.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to KELLY GAMBETTA whose telephone number is (571)272-2668. The examiner can normally be reached on Monday - Thursday 7:00-5:30.
